**Please add additional comments about the course / instructor. You might like to focus on particular strengths of the course and / or ways in which the course could be improved**

Comments

Dr. Sam has allowed us to explore the world of manufacturing beyond the assigned theory. He motivated us and shared us a glimpse of real world design problems and has also given us tools to think further. It was a pleasure taking the course with you Dr. Sam!

Dr. Samuel is literally the best instructor ever! During the lectures, he presents all the information clearly with the aid of videos and samples to help us visualize the final product and understand the whole process. Moreover, he makes things more enjoyable like you can't sleep during his class. Super friendly and kind, all the class members agree on that.

Comment
This course was well organized and explained by Dr.Samuel Cuebro. Dr.Samuel was very helpful and friendly. I believe in this course I learn a lot where I can use the knowledge I learned in real life practices. Dr.Samuel have a very unique style of teaching were he encourages students to work hard and to think harder and to give more effort in acquiring knowledge. Dr.Samuel focuses his overall view in providing engineers who can make this country greater. I believe that Dr.Samuel educated us to be real engineers in which we are proud to call our selves problems solvers. I hope we meet instructors like hem In the future where the course became more enjoyable ,easier to comprehend and stays as a rock in students mined.
only one problem the lab takes a lot of time and its only weights 15% it should be more around 40% is good. Over all Dr.Samuel Cubero is great instructor always their for help, and he have great knowledge.
Dr. Samuel is an excellent instructor, he respects the students a lot, which makes us respect him more. Also, his explanation of the course is really good.
The material is too much! Too much to cover in a short period of time, which is very wrong! But thanks to the instructor he tries his best to indicate what are the most important things we need to know in this course.
Dr Samuel Cuberois one of the best instructors I ever had in my life. He explained the subject very well and very simple. I wish he can teach all courses.

Good Professor Knowledgeable well prepared and good pace of teaching, the course is well connected to mechanical Engineering and i liked the workshop allot and both of the supervisors working there very professional.

One of the best teachers in PI, to be honest

Comment
.
One of the best instructors I ever took a course with since he explained everything and made me feel interested and motivated to do more, always well prepared and helps the students with everything, never late for any class.
He is very helpful doctor, always there for us when asking question never late for any class he is always well prepared. This is the best kind of doctors i ever took with them.

Comment
I enjoyed studying the this course. However, it was boring.
Dr. Samuel is a great person but he wasn't the same as an instructor for this course which required a lot of in class explanation and solving. I can fairly say that I passed most of my quizzes and tests all by myself from reading the required materials from the book. Which was an extra load of work since the lectures were a waist of time.
Best professor in campus. Please leave him alone

Mean	4.89
Standard Deviation	0.33

## Instructor Evaluation

To what extent do you agree with the following statements:

Competency Statistics		Value
Mean		4.87
Standard Deviation		0.34

1. The instructor comes to class well prepared		2. The instructor presents and explains the subject clearly	
Statistics	Value	Statistics	Value
Response Count	9	Response Count	9
Mean	4.89	Mean	4.89
Standard Deviation	0.33	Standard Deviation	0.33

3. The instructor used teaching aids (e.g. whiteboard, presentations, online resources) in ways that supported my learning		4. The instructor treated students with respect	
Statistics	Value	Statistics	Value
Response Count	9	Response Count	9
Mean	4.78	Mean	4.89
Standard Deviation	0.44	Standard Deviation	0.33

5. The instructor was available for help outside class		6. The instructor motivated me to do my best work	
Statistics	Value	Statistics	Value
Response Count	9	Response Count	9
Mean	4.89	Mean	4.89
Standard Deviation	0.33	Standard Deviation	0.33

**Please add additional comments about the course / instructor. You might like to focus on particular strengths of the course and / or ways in which the course could be improved**

Comments
<p>–Pleased with everything. Very stimulating lectures and brilliantly taught. Very interesting case studies as well which made for interesting class discussions.</p> <p>–Great lectures. Energetic. Great structure. Good structured and interesting seminars.</p> <p>–The teacher is very good at teaching and explaining.</p>
<p>The best instructor i hope he teaches us next semester introduction to manufacturing</p>
<p>Lectures are well explain. Also the instructor was well organize and encourage us to do our best. The instructor teaching was very good and he give real life examples for us to understand better.</p>
<p>Dr. Sam is very good in explaining the hard concepts by breaking them down into smaller parts without complicating the idea. I believe that our instructor did a great job this semester.</p>
<p>He is the best teacher, He teached me very well, everything is clear. I hope that he will teach me another course,</p>
